

## 42/60 High Security coupler

### Specifications

Article Nr.	E0104
Dimension	146 x 55 x 3 mm
Weight	0.464 Kg
Package quantity	25

**Safe and secure  
Easy application  
Light weight**

### The simplicity of good building site protection

The 42/60 High Security coupler was developed for semi-permanent projects. This coupler couples the fence to the special posts (diameter 60 mm) for semi-permanent projects.

Installing or opening the coupler using other tools or criminal implements is not possible. The site manager controls the issuing of the special keys and does not need to check the entire site for open fences every day. Burglars will go elsewhere, especially if the building site has total Heras building site protection, including the Optica Secure and M500 Anti Climb mobile fences. High Security couplers can be bought or rented.
