

Connection piece M100

Specifications

Article Nr.	E1100
Dimension	140 x 400 x 53 mm
Weight	5 Kg
Package quantity	1

Functional
Safe and secure
Simple

Certainty in the building process

The two tubes that have been welded together are slid into the top rail of the 2-metre high mobile fence. A 1-metre high mobile fence is slid over them, enabling the height of standard mobile fences to be increased to no less than 3 metres.

Everything for complete building site protection. Such as blocks and struts for stability, the revolutionary High Security coupler for better security or the customised stands for easy transport. Or how about using your fence as a promotional tool? Our Heras' philosophy does not stop at mere fences...

Disclaimer. There are no rights to be derived from the technical specification. You should always consider up to 10% tolerance deviations. Heras herewith complies with NEN-EN 10305-3 © Heras.
