**Safe and secure
Unique
Functional**

Certainty in the building process

The High Security coupler can only be opened and closed using this key.

You can use the key by hand or fit it on a (electronic) ratchet screwdriver.

Everything for complete building site protection. Such as blocks and struts for stability, the revolutionary High Security coupler for better security or the customised stands for easy transport. Or how about using your fence as a promotional tool? Our Heras' philosophy does not stop at mere fences...
