

Mobile Fencing & Security

M500 Mobile fence + C-brackets

Specifications

Article Nr.	C0102000
Dimension	3500 x 2000 mm
Mesh width	35 x 150 mm
Material Fence	Steel
Finishing	Pre galvanized
Weight	24 Kg
Package quantity	66

**Fine-meshed mobile
fence**
Anti-climb feature
Safe and secure
Durable
Strong

The quality standard for temporary building fences

Developed and in production by Heras Mobile since 1998. The narrow meshes and the anti-climb protection offer extra security. Fewer accidents, less theft and less tampering make the M500 Anti Climb a very cost-effective investment.

The M500 Anti Climb is the safest and most durable mobile fence for event and building site protection. That is why Heras Mobile makes this fence available for rental. The fence consists of 13 horizontal and 88 vertical wires. As an extra anti-climb feature, the wires protrude past the tube, so that climbing the fence would be quite a nasty procedure. The M500 Anti Climb is welded on all sides, and all corners have C-brackets, giving the intrinsically strong frame an even longer service life.
